

## THE DIABLO ADVANTAGE:

4 NEW REGISTERED PRODUCTS by Health Canada  
[C.F.I.A] under the Fertilizers Act:

- ALPHA ROOTING GEL (Cloning Gel)
- STUNT MONSTER [1st Registered PGR for use on Cannabis in Canada]
- MONSTER MAXX [currently in registration]
- PUSH [Oil Increasing Product]

After years of research & development **DIABLO** produced a line of products which was introduced in 2014 with one focus, **PERFORMANCE**.

You've heard of smartphones & smart TV's, think of us as smart nutrients. Our competitive edge is our Nano-Emulsion Technology, which simply means our scientists have broken down the particles of our products to the most absorbable level possible & have paired them with a special sequestering formula (delivery system) to help the products get to the right place inside the plant at the right time in the correct ratio.

### WHY SWITCH?

- Developed by a group of plant researchers & tested in licensed grow facilities; our line was created for use on medical cannabis.
- We are the fastest growing cannabis nutrient company in Canada for a reason: Our products perform at the highest level!
- We developed the line with profitability in mind for retailers & wholesalers, plus successful results for our growers.
- We use all food & pharmaceutical grade products and source the purest, safest form of ingredients possible.
- We cross promote with stores by offering advertisement on our dealer page.
- Some of our competitors formulas have been around for more than 30 years.

**PLANTS DON'T CHANGE. TECHNOLOGY DOES!**

**#1 GOAL = \$\$\$ • HOW GROWERS MAKE \$\$\$ = Quality & Weight**

**DIABLO NUTRIENTS** = Healthier, sturdier & more fruitful plants that produce exceptional results with exceptional quality

**HEALTHIER PLANTS = BETTER YIELDS = BETTER MARGINS!**
